

Topvet

NATURAL MILK & FAT ENHANCER
POWDER 1kg

Topvet powder for healthy ecosystem of cattle, calf and consumer; providing optimum commercial ecosystem for farmer."

Toptime' solution for natural Milk & Fat enhancement while keeping Animal healthy. It can be used in all types of Milk producing animals.

Topvet powder formulated with concepts of ancient Ayurved and Gau-ayurved for enhancing milk production and performance of animals.

Plausible action of the ingredients:

Topvet powder consists of herb Bala, Neem, Methi and Shigru (Moringa) helpful in stimulating the milk production and providing bone replenishment for animals. Soybean and Methi are known to increase the milk fat content; vitamin, amino-acids & other micronutrient availability.

Guduchi is known as Rasayan and helpful in rejuvenating milk producing tissues, prevents mastitis during lactation phase & enhances immunity.

Kalmegh herb acts as superior liver protective, antiviral, antibacterial & provides beneficial effects during calving phase; enhances calf immunity and physical activity.

Net Contents:
TopVet Powder 1000gm

Benefit for Animal:

- Reduces bone loss and weakness due to lactation.
- Prevents mastitis & its recurrence
- Keeps animal active during Transition phase (3 weeks prior to calving and 3 weeks after calving)
- Keeps animal stress free during Transition phase (3 weeks prior to calving and 3 weeks after calving)
- Keeps liver healthy & reduces chances of fatty liver disease during lactation
- Efficiently sets next lactation cycle when used during dry phase.

Benefit for Calf:

- Superior immunity and optimum nutrition
- Healthy digestive strength
- Sufficient milk feed leading to optimum growth during calving phase.

Benefit for Farmer:

- Increased milk out-put (upto 30% additional yield)
- Increased milk fat content (upto 15% additional yield)
- Reduction in disease related to immunity, digestion and liver
- Maximum output of dairy products during lactation cycle
- Optimum metabolism during Dry phase.

Benefit for Dairy Product Consumer:

- Optimum vitamins & amino-acids
- Milk devoid of synthetic lactation related residues
- Naturally enriched with proteins, light in digestion

Note: Do not stop any other mineral feed (Calcium etc.) or existing feed as directed by your veterinarian. Topvet Powder shall be used as additional feed.
