

# ACTIVE AAMLA Juice

Unique anti-aging composition for combating oxidative stress

One of the human body's most masterful tricks is its ability to give us clues about what's going on inside. Many people feel tired, forgetful, having joint pain or stiffness, irregular bowel movements & more. Often when these people go for a general check up or blood test or X-rays, the tests come back as normal. Unfortunately, they still feel that their body is not right or that their body feels older than their actual age. This is what we call signs of early ageing. Premature wrinkles, skin tone, the condition of your hair, and the way you look & move can indicate whether your biological age is higher than your chronological age. Your biological age refers to how well your body is functioning & can be much higher or lower than your actual age. While a balanced diet, physical activity and intake of nutrients are important to avoid premature ageing; there are wonderful gifts from nature that are enriched with properties that are highly beneficial to the human body. Using these gifts in their optimal form can support anti-aging and provide the much needed vigor to combat oxidative stress - that causes accelerated aging in the body.

## SOLUTION

Deltas Active aamla Juice is prepared with organically harvested Aamla fruits in combination with powerful hepatoprotective and anti-oxidant herbs like Amrita (*T. cordifolia*) stem Juice & Bhumyamalaki (*P. niruri*) whole herb Juice. Aamla or Indian gooseberry is a powerful superfood that help reduce the aging process and improves eye diseases, digestive problems, diabetes and other health issues. It is also the richest natural source of vitamin C.

## PRODUCT

Deltas Active aamla Juice provides organically harvested Aamla (*E. officinalis*) fruits in combination with

powerful hepatoprotective and anti-oxidant herbs. These natural liver protective herbs are enhanced with stem cell activator complex. Adult stem cell function declines with aging process. Rejuvenating stem cells is the key to cell renewal, support for recovery from disease or injury, and longevity. Active aamla Juice an innovative first-in-its-class stem cell activator; formulated as a synergistic herbal Juice for supporting your stem cells at the optimum metabolic level.

Additionally, Amrita (*T. cordifolia*) offers potent anti oxidant action that supports tissue repair and helps eliminate metabolic toxins from the body. Bhumyamalaki (*P. niruri*) protects liver from various types of viral diseases and provides cellular recovery. Deltas' concentrated Aamla Juice is manufactured with specific technology to preserve the vitamin C and natural iron; it is blended with carnosic acid derived from Tulasi for natural preservation.

## COMPOSITION

Each 10ml Active aamla Juice is prepared by the following ingredients: Aamla (*Emblica officinalis*) Fruit Juice 95%, Amrita (*Tinospora cordifolia*) Stem Juice 2%, Bhumyamalaki (*Phyllanthus niruri*) Whole herb Juice 2%, Permitted Preservatives q.s.
