Supports graceful aging

Improves concentration, focus, memory and prostate functions

WHAT IS FATIGUE?

We all experience Fatigue, an unusual overwhelming tiredness which is not comparable to physiologic exhaustion after physical or mental effort and which cannot be recovered by restful sleep.

This is due to the lack of nutrition especially of essential fatty acids(EFA). The fatty acids and EFA cannot be produced in the body and are supplemented through outside sources like edible oils and standard diet. The non-essential fatty acids are produced by metabolic processes.

Each 550 mg of Nutrilong Super Omega Tablet is prepared by the following ingredients:

Flax Seed Oil (LINSEED OIL) (Linum usitatissimum)	30 mg	Badriphal Oil (Hippophae rhamnoides)	10 mg
Sarshap (MUSTARD OIL) Brassica nigra	15 mg	Jaitun Oil (OLIVE OIL)	10 mg
Walnut oil (Jugulens regia)	15 mg	Dimethicone	50 mg
Hemp Seed Oil (Cannabis sativa)	15 mg	Pancreatin	100 mg
Soyabean Oil (Glycine max)	10 mg	Pepsin	25 mg

Functions of omega oil from 5 sources:

Omega-3 fatty acids are essential to health and have been associated with benefits like reduced inflammation, improved heart health and protection for the brain against aging. Flax seed oil is rich in omega-3 fatty acids and reduces inflammation and promotes cardiac health. Whereas, Mustard oil possess anti-bacterial, anti-fungal & anti-carcinogenic properties. Soyabean oil is rich in phytosterols called isoflavones (plant-derived polyphenols and estrogen look-alikes) that scavenge free radicals and supports bone health. Hemp seed oil & walnut possess anti-inflammatory activities.

Nutrilon Super Omega Tablet is a natural blend containing:

- Omega oil from 5 authentic nutritional sources.
 - Flaxseeds, Mustard, Walnut, Soybean and Hemp formulated with natural enzymes like pancreatin and pepsin.
 - Lipase from pancreatin supports digestion of the oil while other enzymes promote digestion.
 - Provides balanced intake of fatty acids
- Nutrilon Super Omega tablet is the rich source of

essential fatty acids with pancreatin. It provides essential and rare fatty acids from plant origin optimally formulated for human health. Pancreatin has a primary function of helping to break down food and convert it into energy. These digestive enzymes help in maximum absorption of omega oils and thus, give maximum benefits.

Directions for use:

Take 1 tablet twice a day after meals or as advised by the physician.

Sarshap

Flax seed

Walnut oil

Nutrilon Super Omega

Enriched with digestive enzymes for healthy life!
